

BLANTYRE DISTRICT COUNCIL

DISTRICT DEVELOPMENT PLAN

2017 – 2022

May 2018

On the cover

(Top left) Michiru mountain in Mdeka – Natural tree regeneration; (Top right) Lirangwe health centre – providing improved health facilities; (Bottom left) Mpemba residential estate – provision of residential plots spurs economic growth; (Bottom right) Lunzu street lighting – improved security extends business hours into the night.

Foreword

The Local Government Act 1998 mandates all district councils to formulate their District Development Plans (DDPs) as a blueprint for poverty reduction.. It is in light of this that the Blantyre District Council has formulated this development plan in order to facilitate social economic development.

The District Development Planning System (DDPS) mandates the council to formulate a five year plan for the 2017 - 2022 DDP. The preparation of the plan followed a long, comprehensive and participatory process involving almost all development partners including government sectors, non-state actors and even people at the grassroots level through the Village Action Planning Process (VAPs).

Not only does the Plan include a list of programmes and projects related to prioritized development issues and potentials, it also includes indicative potential sources of financing the planned projects. Furthermore, the Monitoring and Evaluation framework is included to help the council keep track of the achievements of the intended district and national development objectives during implementation of planned programmes and projects.

The plan also provides a link between its development issues and the Malawi Growth and Development Strategy III (MGDS III), which is Malawi's medium term overarching national development strategy , in order to ensure that the plan relates to the national objectives. The plan has also been linked to Sustainable Development Goals (SDGs) which are the 2030 Global Development agenda.

The plan (DDP) seeks to provide a coordinated approach to the implementation of development projects and programmes that are reflective of peoples' needs and priorities as articulated in the Village Action Plans (VAPs).In this regard, it provides an inventory of the prioritized developmental priorities from which all development partners shall identify projects/programmes for their implementation. Hence, no project will be implemented within Blantyre District outside the DDP during the period 2017 – 2022.

*Financial mobilisation
Monitoring*

Finally, it is hoped that all development partners will join hands and support the plan.

Councilor Jeremiah Jumbé

Chairman – Blantyre District Council

Preface

The 2017-2022 Blantyre District Development Plan contains programmes and projects that aim at improving the livelihoods of the people in Blantyre District Council in tandem with the Malawi Growth and Development Strategy III (MGDS III). According to the development agenda of the district, all development partners prepared to work in Blantyre during the 2017-2022 period MUST implement programmes and projects that address issues stipulated in this plan.

The formulation of the plan involved identification of key challenges faced by rural communities and identified appropriate strategies to address the challenges through Village Action Plans (VAPs) for all 137 Village Development Committees (VDCs) in Blantyre. The VAPs were consolidated into eleven Area Development Plans (ADPs).

A DDP Task Team prepared a draft DDP that was discussed at a multi-stakeholder consultative conference where stakeholders assured the council of commitment to financially support the issues raised in the DDP. Thereafter, the draft plan was technically reviewed by the DEC and later vetted by the Development Service Committee of the Council. Finally, the DDP was approved by the Full District Council.

The plan consists of the National Development Frameworks, District Development Planning Framework, List of programmes and projects, Resources for district development, Annual Investment Plans, and a Monitoring and Evaluation Framework.

It is my wish that implementation of this DDP will improve livelihoods of the people of Blantyre Rural.

Bennet F. Nkasala

District Commissioner

Acknowledgement

The Council is indebted to the District Development Plan (DDP) Task Team members led by Mr Francis Matewere (Director of Planning & Development). The team also comprised Mrs Thokozile Ngwira (District M&E Officer), Mr Maxwell Mbulaje (District Environmental Officer), Mr Lester Kacheche (District Agriculture Nutrition Officer), Mr Dan Mataula (Agriculture Planning Officer), Mr Paul Madzikusamba (District Fisheries Officer) Mrs Martha Mbawe (Crops Officer), Mrs Irene Chiotha (Senior Inspector - Education), Mr Peter Mkwapatira (Assistant District Forestry Officer), Sergeant Chiwala Chirwa (Chileka Police Station), Mr Earnest Takomana(-Assistant Environmental Health Officer), Mr Walusungu Mwafulirwa (Assistant District Disaster Risk Management Officer), Mrs Agness Napwanga (District Community Development Officer) Mr Baldwin Mkumbadzala (District Youth Officer), Mr Alex Mulangali (Senior Assistant Social Welfare Officer), Mrs Eunice Mtimfukanji Tembo (District Sports Officer), Mr Mavuto Mizwa,(Capacity Strengthen & Governance Manager- Save the Children), Mrs Tiyanhulenji Chinkhande (Assistant Irrigation officer),Mr Joseph Bodole (Chief Public Works Officer), Mr Moses Kachitenji (Resilience Coordinator- Save the Children)

Thanks should also go to all VDC, ADC and Area Executive Committee (AEC) members for their involvement in the preparation of the VAPs and ADPs. The District Executive Committee (DEC), Development Committee and Full Council members (see list attached) that significantly contributed to the outcome of this District Development Plan (DDP) and approved the plan respectively also deserve acknowledgement. A vote of thanks is also extended to Mr Walusungu Kayira and Mr Moses Zuze from the Directorate of Planning & Policy in the Ministry of Local Government and Rural Development for providing quality assurance of the plan. The Local Government Accountability and Performance (LGAP) project through its officials, namely Mr Elton Edward, and Mr Jimmy Kwagwani, and its consultants namely Mr Manuel Mang`anya and Dr Milton Kutengule, also deserves special thanks for financial and technical support. Last but not least, Mr Bennet Nkasala (District commissioner), deserves special thanks as well for his overall leadership and continuous encouragement without which this plan could have not been accomplished on time.

Francis Matewere

Director of Planning and Development

Executive summary

Blantyre District, the commercial and industrial capital of Malawi, is located in the Southern Region of Malawi. It covers the largely rural area that surrounds the commercial city and has a population of 417, 453 (51% females) (NSO,PHC, 2008) with a population density of 189 per square kilometre. The district occupies a total land space of 201,696 hectares, 64,455 hectares of which is used for agriculture, 10,237 hectares are for urban development, and 15,058.2 hectares are for forestry and the rest are for other uses. Blantyre rural has high poverty level with 65.3% (NSO, IHS, 2011) of the people living below the poverty line.

The proportion of poor and ultra poor was higher for Malawi than Blantyre. Further, there is a decrease in the proportion of ultra poor for the district from 16.0% to 13.5% (NSO, **IHS 2005 and 2011**)

Despite considerable investments in major sectors of the district, the analysis of the latest socio-economic profile and Village Action Plans revealed that Blantyre rural faces the following thirteen major developmental challenges in descending order of priority: High food insecurity, Low household incomes, High population growth, Poor standards of education, Poor road network, high environmental degradation, high level of teenage pregnancies, high rate of youth unemployment, high morbidity and mortality, low access to portable water, high levels of malnutrition, high crime rate, and poor governance and accountability structures. These issues are linked to the national planning frameworks such as Vision 2020; the Malawi Growth and Development Strategy III (MGDSIII); the National Decentralization Policy and United Nations' Sustainable Development Goals (SDGs)

Blantyre District Council has therefore formulated this 2017-2022 District Development Plan that contains a list of programmes and projects that respond to strategies that address each of the above listed development issues. The projects were generated from all 137 Village Development Committee members through a highly participatory process that led to the formulation of Village Action Plans (VAPs). All VAPs under each Area Development Committee were also prioritized and consolidated into Area Development Plans (11 ADPs).

The plan also breaks down programmes and projects into separate yearly Annual Investment Plans and their respective budgets to guide annual implementation. The plan estimates that MK31 billion will be required during the 5 year period to implement the proposed programmes and projects. It is expected that Malawi Government (Including the Blantyre District Council itself), NGOs, donors, private sector and beneficiaries will provide the required financing.

A Monitoring and Evaluation Framework has also been provided to track progress towards planned targets on a regular basis and also to assess the achievement of results, at the end of the 5-year period. The M&E framework is also expected to provide information for purposes of lesson learning. Evaluation

CHAPTER 1: National Development Frameworks

1.1 Introduction

The District Development Planning process does not take place in isolation. Since the government's main focus is to eradicate poverty through sustainable economic growth, a deliberate effort has been made to link the District Development Planning system to the National Development Policy Framework. This is in recognition of the fact that implementation of the development programmes at the district level will contribute to national development. It is in this regard that the linkage between the two (district planning and national planning systems) has been the main preoccupation/initiative of the decentralization policy.

Therefore, in order to be part and parcel of the national development programme, the district development system derives its objectives from the national key development instruments namely: Vision 2020; the Malawi Growth and Development Strategy III (MGDSIII); the National Decentralization Policy and United Nations Sustainable Development Goals (SDGs).

The 2017-2022 Blantyre District Development Plan (DDP) has also incorporated the reforms agenda which is key in transforming rural livelihoods.

1.2 Sustainable Development Goals (SDGs)

In 2015, world leaders noted that poverty levels were still high across the globe and set out to cut extreme poverty in the world by half in 15 years. Thus the international community created a plan that aimed at getting rid of poverty and hunger, and safe from the worst effects of climate change through achieving the following 17 Sustainable Development Goals (SDGs): the thrust of SDGs emphasises the notion of leaving no one behind in the development agenda.

These 17 SDG goals are as follows;

- i. End poverty in all its forms everywhere
- ii. End hunger, achieve food security and improved nutrition and promote sustainable agriculture
- iii. Promote healthy lives and promote well-being for all at all ages
- iv. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all
- v. Achieve gender equality and empower all women and girls
- vi. Ensure availability and sustainable management of water and sanitation for all
- vii. Ensure access to affordable, reliable, sustainable and modern energy for all

- viii. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
- ix. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
- x. Reduce inequality within and among countries
- xi. Make cities and human settlements, inclusive, safe, resilient and sustainable
- xii. Ensure sustainable consumption and production patterns
- xiii. Take urgent action to combat climate change and its impacts
- xiv. Conserve and sustainably use the oceans, seas and marine resources for sustainable development
- xv. Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
- xvi. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels; and
- xvii. Strengthen the means of implementation and revitalize the global partnership for sustainable development.

It is worth noting that the MGDS III takes into account the SDGs such that aligning the DDP to the MGDS III leads to the DDP's alignment with the SDGs and its contribution in socio and economic development will be critical in achieving the SDG goals.. Indeed the areas of concern are essentially the same.

1.3 Vision 2020

The Government of Malawi formulated its Vision 2020 in 1998 as a long term development agenda to eradicate poverty. The vision did set out the aspirations of the nation to be attained by the year 2020. It expresses both hope and determination in ridding the nation of poverty and attaining a middle-income status by world standards. Vision 2020 states that: 'By the year 2020, Malawi as a God fearing nation will be secure, democratically mature, environmentally sustainable, self-reliant with equal opportunities for and active participation by all, having social services, vibrant cultural and religious and a technology driven middle-income economy.'

Vision 2020 further outlines Malawi's development challenges as follows:

- Achieving good governance
- Achieving sustainable economic growth and development
- Achieving a vibrant culture

- Developing economic infrastructure
 - Securing food security and nutrition
 - Developing the social sector
 - Achieving science and technology- led government.
 - Achieving fair and equitable distribution of income
- The management of natural resources and the environment

1.4 Malawi Growth and Development Strategy III (MGDS III)

The Malawi Growth and Development Strategy (MGDS III) is the medium-term overarching strategy for Malawi designed to contribute to Malawi's long-term development aspirations. The strategy covers a period of five years (2017 to 2022). The overall objective of the strategy is to move Malawi to a productive, competitive and resilient nation through the designed key priority areas as follows: (include infor on demographic dividend)

- (i) Agriculture, Water Development and Climate Change Management;
- (ii) Education and Skills Development;
- (iii) Transport and ICT infrastructure;
- (iv) Energy, Industry and Tourism Development and
- (v) Health and Population.

The MGDS III also identifies other development areas as follows;

- a. Financial services
- b. disaster risk management and social support
- c. gender, youth development, persons with disability and social welfare
- d. human settlement and physical planning
- e. environmental sustainability
- f. HIV and AIDS management
- g. peace and security

Critical to the implementation of MGDS III will be effective and robust decentralized framework. Government had put in place decentralisation policy to assist in devolving functions from the central government to local councils in order to facilitate effective implementation of these activities. MGDS III implementation will emphasize devolution of those functions that have not yet been devolved so that decisions are made at the local level for development efficiency and effectiveness. It is expected that local councils will take active role in putting up policy decision that will facilitate development programmes that are inclusive and help the country attain sustainable national development

The Demographic Dividend is the economic benefit that arises from a significant increase in the ratio of working age adults relative to young dependents that results from a decline in birth rates and death rates. When these rates decrease substantially the age structure of the population shifts in such a way that for a time, there are more working age adults relative to young dependents in the population. The population of Malawi is youthful, with almost half (47 percent) aged 18 and below. This youthful population is Malawi's greatest resource. If properly nurtured and supported, the youth will positively contribute to Malawi's socio-economic development.

1.5 The National Decentralization Policy

Decentralization of political and administrative authority to district level represents a paramount priority of the Malawi Government, as outlined in the National Decentralization Policy. The policy in Malawi was approved by cabinet in 1998 and was backed by the Local Government Act. The form of decentralization implemented in Malawi is referred to as "devolution." The Decentralization Policy aims at:

- Devolving administrative and political authority to the districts
- Integrating governmental agencies at the district and local level into one administrative unit through the process of institutional integration, manpower absorption, composite budgeting and provision of funds for the decentralized services
- Diverting the centre of implementation responsibilities and transfers to the districts
- Assigning functions and responsibilities to the various levels of government
- Promoting popular participation in governance and development of the districts through actively involving the ordinary people in designing, implementing, monitoring and evaluating their socio-economic interventions in the rural areas.

The District Council emphasizes that implementation of the DDP will promote the decentralization process and further support the government in its efforts to achieve sustainable poverty reduction through socio-economic and political empowerment of the poor. The formulation of the DDP has therefore aligned the priorities stipulated in the Malawi Growth and Development Strategy III with the developmental aspirations of people of Blantyre during the preparation of their Village Action Plans and the District Socio-Economic Profile towards the end of 2017.

1.5.1 Local Government Act (1998)

The local Government Act was enacted in 1998 to provide legal impetus to the implementation of the decentralisation policy. Under section 6 (1) the act made several provisions among some includes the following;

1. To make policy and decisions on local governance and development for the local government area
2. To consolidate and promote local democratic institutions and democratic participation
3. To promote infrastructural and economic development through the formulation, approval and execution of district development plans
4. To mobilise resources within the local government area for governance and development
5. To maintain peace and security in the local government area in conjunction with the Malawi police service
6. To make by laws for the good governance of the local government area

Chapter 2: The District Development Planning Framework

The District Development Plan for Blantyre is based on the identified challenges and potentials that exist in the district. Furthermore, the plan aims at responding to the aspiration of the district as stipulated in the district's strategic plan. This chapter therefore presents the district's development vision, mission, key development issues, potentials and the planning framework.

2.1 Blantyre District Development Vision

The vision of Blantyre District is “a council that is able to provide sustainable quality socio-economic services adequately to its community”.

2.2 Blantyre District Development Mission

The Mission of the Council is therefore “to provide timely high quality and equitable socio services through promotion of local governance and popular participation of the community's attainment of sustainable socio-economic development of the district”.

2.3 strategic objectives

Blantyre district council endeavours to achieve its mandate through the following strategic objectives

1. To create a democratic environment for popular participation in governance and development at the local level.
2. To provide socio - economic services, coordinate and guide developmental issues in the district
3. To improve access, quality and utilization of social services by communities.
4. To enhance and improve revenue generation and human resource capacity for optimal operational performance

2.3 Prioritised Development Issues

Blantyre District Council in consultation with the communities through Village Development Committees and Area Development Committees identified and prioritized development issues. In addition, issues derived from the analysis of the district's Socio-Economic Profile also contributed to the list of development issues. In the final analysis, issues from the two sources were consolidated and re-prioritized as follows in a descending order of priorities:

- i. Food insecurity
- ii. Low household incomes
- iii. High population growth rate,
- iv. Poor standards of education
- v. Poor road network
- vi. Environmental degradation
- vii. Teenage pregnancies and early marriages
- viii. High level of youth unemployment
- ix. High neonatal and under five morbidity and mortality
- x. Low access to potable water
- xi. High levels of malnutrition
- xii. High crime rate
- xiii. Poor governance and accountability structures

2.4 Potentials

The plan also considers potentials or development enabling factors that exist in the district that can be tapped to spur development of the council. The major potentials identified are:

- i. Availability of land
- ii. Aquatic and marine
- iii. Waterfalls on the Shire River at other sites other than Nkula and Tedzani
- iv. Proximity to the commercial city provides a ready market for products in the district
- v. Mountains, Forests, Game Reserves, Waterfalls, and Culture
- vi. Skilled Human Resource
- vii. Capital Assets - available land and existing infrastructure/buildings
- Viii. Financial Resources - LDF, CDF, COMSEF, DDF, District Council locally generated revenue, ORT, Public Works, Rural Housing and other partners in development.

Chapter 3: Programmes and Projects

The district development plan process translates the strategies identified in the District Development Planning Framework into programmes and projects. It is expected that once the programmes and projects are effectively implemented, the prioritized development issues/challenges will be addressed.

This section presents a list of proposed programmes and projects for the 5 year period (2017 – 2022). The programmes and projects are presented with information on the primary beneficiaries, location, budget requirements, lead agencies in implementation and source of funding for the interventions.

Table 2: Listing of Programmes and projects

Please create two columns within the matrices highlighting alignment to MGDS III and SDGs

Development Issues no. 1: Food Insecurity

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/Organization	Source of Funding
Soil fertility improvement	Promotion of manure making and agro-forestry aiming at soil fertility improvement	Farmers	5 EPAs	2017 - 2022	144	Agri, Forestry, NGOs	SAPP, SRBMP, World bank and other donors , Private sector & NGOs
Soil and water conservation	Involves construction of physical soil and water conservation structures to prevent soil erosion and conserve water	Farmers	5 EPAs	2017 - 2022	193,	Agri, NGOs	SAPP, SRBMP, NLGFC, MDRRP, MFERP, World Bank and other donors , Private sector & NGOs
Good Agricultural	Involves mounting of demonstrations	Farmers	5 EPAs	2017 - 2022	291	Agric, NGOs,	SAPP, SRBMP, NLGFC, MDRRP, ,World Bank and

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/Organization	Source of Funding
Practices (GAP)	on GAPs in order to enhance productivity						other donors , Private sector & NGOs
Drought tolerant crops promotion	Projects involves sourcing, distribution and sensitisation of use of drought tolerant crops	Farmers	5 EPAs	2017 - 2022	384	Agric.	MDRRP, MISST, donors , Private sector & NGOs
Sustainable irrigation project	Involves construction and rehabilitation of schemes to improve agricultural production	Farmers	5 EPAs	2018-2022	700,	Irrigation,	,MDRRP, MFERP, WFP, UBALE, donors NGOs, Private sector
Establishment of village	The project will involve	Communities	11 ADCs	2017-2022	30,	Community	NLGFC, UBALE,WFP,

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/Organization	Source of Funding
savings and loans	mobilisation of communities to develop culture of saving and investing					Development	donors NGOs, Private sector
Post harvest handling improvement	The project will involve demonstration on improved crops storage structures and treatment with the aim of reducing post harvest losses	Farmers	5 EPAs	2017-2022	86,	Agriculture, NGOs	, SAPP, MDRRP, UBALE, donors NGOs, Private sector
Integrated pest management	The project will involve pest surveillance, monitoring and control with the aim of reducing	Farmers	5 EPAs	2017-2022	114	Agriculture, NGOs	SAPP, FAO,SANE, donors NGOs, Private sector

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/Organization	Source of Funding
	occurrence of field pests						
Extension services up scaling	The project will involve identification and training of lead farmers to increase extension coverage	Farmers	5 EPAs	2017-2022	108,000,000	Agriculture, NGOs	SAPP, UBALE, WFP, donors NGOs, Private sector
Dairy Livestock development and management	The project will involve training of dairy farmers in dairy livestock management to increase livestock and their products	farmers	Ntonda & Chipande EPAs	2017 - 2022	161,	Agriculture	Govt, NGOs & Pvt sector

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/Organization	Source of Funding
Small ruminants development project	The project will involve training of farmers in small stock management to improve household income and nutrition	Farmers	5 EPAs	2017-2022	118,	Agriculture	SAPP, TLC/FAO,FISD/WFP NGOs & Pvt sector
Fisheries and aquaculture development	The project will involve training of farmers in fisheries management to improve household income and nutrition	Farmers	5 EPAs	2017-2022	195	Fisheries	NLGFC, NGOs & Pvt sector

Development Issues no. 2: Low Income Levels

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/Organization	Source of Funding
Small and medium enterprises (SMES) programme	The initiative will involve identification of small & medium businesses and training in business management & entrepreneurship with aim of economically empowering communities	Youth, women and business groups	All 8 TAs	2017 - 2022	282,	Community Development, Youth Development, Trade and Agric	COMSIP,, NGOs & Pvt sector

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/Organization	Source of Funding
Farmer cooperatives development	This will involve formation of farmer cooperatives to enhance their capacity in group dynamics to link with organised markets	Farmers	All 8 TAs	2017 - 2022	133,	Agric, Community Development, Trade and youths	COMSIP, SAPP,UBALE , NGOs & Private sector
Rural banks establishment lobbying	This will involve meetings with commercial banks to encourage them to open branches in rural areas	Communities	Mdeka, Mpemba, Lirangwe, Kunthembe	2017 -2018	2,	District Council	Govt

Development Issues no. 3: High Population Growth

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement(MK'000,000)	Lead Agency/Organization	Source of Funding
Family planning programme	This will involve increasing uptake of modern family planning methods	Men, women, & youths	All 8 TAs	2017 - 2022	150,	Health, Youth , CSOs & Development partners	PSI, BLM, MSH,UNFPA,N GOs & development partners

Development Issues no. 4: Poor Standards of Education

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement(MK'000,000)	Lead Agency/Organization	Source of Funding
Education infrastructure development	This will involve construction and rehabilitation of classroom blocks, offices, teachers houses, sanitary facilities and libraries	Teachers, learners, Communities	All 15 Zones	2017 - 2022	1,617 (Construction =1,459,; Rehabilitation = 157,)	Education, Pvt sector, CSOs and development partners	SIG, NGLFC,COMSEF, DDF, CDF, Fisherman's nest, NGOs, Pvt sector
Teaching and learning materials supply programme	This will involve sourcing and distribution of teaching and learning materials	Teachers and learners	All 15 Zones	2017 - 2022	215,	Education, Pvt sector, CSOs and development partners	SIG, NRP, VSO,NGOs, Pvt sector

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement(MK'000,000)	Lead Agency/Organization	Source of Funding
School feeding programme	This involves provision of free porridge and growing of maize to retain learners in school	Primary school learners & CBCCs	All 15 Zones	2017 - 2022	2226	Education, Social Welfare	Mary's meals, Fisherman's nest, NGOs, Pvt sector
School management training programme	This involves training of SMS, PTAs and Mother Groups	SMSs, PTA, Mother Groups	All 15 Zones	2017 - 2022	200,	Education, CSOs, Private sector and donors	SIG & NGOs
Continuing Professional Development	This involves conducting CPDs for teachers	Teachers	All 15 Zones	2017 - 2022	250,	Education, CSOs, Private sector and donors	SIG & NGOs
Adult literacy programme	This involves community mobilisation, formation of	Communities	All 8 TAs	2017 - 2022	8925	Community Development	Govt, NGOs, donors

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement(MK'000,000)	Lead Agency/Organization	Source of Funding
	adult literacy centres, impacting skills or reading, writing and simple arithmetic for effective development						
Early Childhood Development Programme	This involves community mobilisation, election of committee members, identification & training of care givers, construction of CBCCCs, production &	Children aged 3 to 5 years	All 8 TAs	2017 - 2022	200,	Social welfare	Govt,NGOs, UNICEF and other donors

	provision of materials						

Development Issues no. 5: Poor Road Network

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement(MK'000,000)	Lead Agency/Organization	Source of Funding
Road construction and upgrading	This will involve construction and upgrading of earth roads into gravel and bitumen	Communities	All 8 TAs	2017-2022	12,1682	Public works	Roads Authority and development partners
Road maintenance	This will involve maintenance and rehabilitation	Communities	All 8 TAs	2017-2022	2,747,295,	Public works	NLGFC, MFERP, SRMBP, COMSEF,

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement(MK'000,000)	Lead Agency/Organization	Source of Funding
and rehabilitation	of earth roads to improve accessibility						DDF, FISP/WFP and development partners

Development Issues no. 6: Environmental Degradation

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/Organization	Source of Funding
Waste management programme	This will involve awareness on waste management , inspection and establishment of a dump site in Blantyre district	Communities and industries	All 8 TAs	2017 - 2022	85,	Environment & Health	NLGFC, NGOs and Pvt sector
Tree planting project	This will involve engaging communities to replant trees in bare lands	Communities	All 8 TAs	2017 - 2022	135,	Forestry& NGOs	COVAMS II,MDRRP. MFERP, NLGFC, SRBMP, NGOs (UBALE, FISD/WFP,STEFA NOS, , WESM, Fisherman's Nest)

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/Organization	Source of Funding
Natural forest regeneration	This will involve training of communities in managing forest regeneration	Communities	All 8 TAs	2017 - 2022	98,	Govt & NGOs	COVAMS II, NGOs (Ubale, STEFANOS, , WESM, Fisherman's Nest)
Environmental education project	This will involve training of communities in effects of environmental degradation	Communities	All 8 TAs	2017 - 2022	36,	Environment, Forestry & NGOs	SRBMP, NLGFC, , NGOs (Ubale, STEFANOS, , WESM, Fisherman's Nest)
Afforestation	Involve natural regeneration promotion, tree seedling raising, planting and management	Community	8 Area Control Units (ACU)	2017 - 2022	253,	Forestry	MDRRP, MFERP, NLGFC, SRBMP, NGOs (UBALE, FISP/WFP, STEFANOS, , WESM, Fisherman's Nest) other

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/Organization	Source of Funding
	with purpose of providing forestry products and conserve soil and water						donors, Private sector & NGOs
Disaster risk reduction	This will involve awareness and construction of disaster evacuation centre	Communities, Government and NGOs	All TAs	2017-2022	83,	Disaster (DODMA) and NGOs	DODMA, UBALE, Action Against Hunger, other CSO, Development partners
Disaster impact mitigation	This will involve implementation of safety nets to assist affected communities to recover	Communities, Government and NGOs	All 8 TAs	2017-2022	94,	Disaster	DODMA, MFERP, MDRRP, SRBMP, UBALE, Action Against Hunger, other CSO,

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/Organization	Source of Funding
	from disaster shocks						Development partners
Rural electrification programme	This involves tapping electricity from national grid to electrify rural centres	Communities in rural trading centres	All 8 TAs	2017-2022	1540,	Energy	MAREP
Mini grid electrification programme	This involves generation and distribution of electricity from other sources	Communities	All TAs	2017-2022	159	Energy	MAREP

Development Issues no. 7: Early Marriages and teen age pregnancies

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement(MK'000,000)	Lead Agency/Organization	Source of Funding
Keeping girls in schools programme	This will involve initiatives that will encourage girls to remain in school with aim of being productive citizens	Girls and boys of school going age, men and parents/guardians, teachers	All 15 education zones	2017 - 2022	60	Education , Health, Youth, CSOs	Govt, DREAMS, FHI 360, FOCORD, other NGOs & development partners

Development Issues no. 8: High Rate of Unemployment among Youths

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders / Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/ Organization	Source of Funding
Vocational Skills and business capital development	This will involve establishment and construction of Community Based Vocational Skills Development Centres to improve vocational and entrepreneurship skills among youths	Youth	All 8 TAs	2017 - 2022	86	Youth	Govt, NGOs, TEVETA
Youth centre development programme	This will involve construction and provision of standard package in	Youths and communities	All 8 TAs	2017 - 2022	535	Youth & Sports	Govt, Blantyre Synod, other NGOs &

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders / Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/ Organization	Source of Funding
	multi-purpose youth centres						development partners
District investor promotion programme	This will involve inviting potential medium and large companies to an investor forum with the aim of wooing firms to invest in the district	District Council	Lunzu	2019 - 2020	20	District Trade Office	District Council & Private Sector

Development Issues no. 9: High Morbidity and Mortality

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement(MK'000,000)	Lead Agency/Organization	Source of Funding
TB programme	This involves active case finding and treatment of Multi-drug resistance (MDR) to prevent TB related deaths	Communities	All 33 Health Centre	2017-2022	100,	Health	National TB Control Programme, , Challenge TB, , Global Fund, World Bank, other development partners
Neglected Tropical Diseases (NTDs)	This involves mass drug administration in schools and communities to reduce prevalence and	Schools and communities	All schools and communities	2017-2022	150,	Health	Govt & UNICEF and other development partners

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/Organization	Source of Funding
	incidences of NTDs						
Malaria programme	This involves prevention and treatment of malaria cases	Communities	All TAs	2017-2022	240,	Health	Malaria Control Programme and World Vision Malawi/ Global Fund
Safe Motherhood Programme	This involves awareness and service provision on maternal and newborn care	Women of child bearing age and new borns	All TAs	2017-2022	250,	Health	Govt, MSH, UNFPA, other development partners
Expanded Programme on Immunisation	This involves immunizations vaccines of	Women of child bearing age and	All TAs	2017-2022	195	Health	Govt, KFW, GAVI, UNICEF and other

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/Organization	Source of Funding
	preventable diseases	under 2 year olds					development partners
HIV/AIDS programme	This involves prevention, treatment and mitigation of HIV to reduce incidence and prevalence of HIV	Communities	All TAs	2017-2022	125	Health	NAC, PSI, MACRO, EGPAF, & NGOs
Integrated disease surveillance and response	This involves surveillance, response of diseases of public health importance	Communities	All TAs	2017-2022	195	Health, Nutrition	Govt, UNICEF and other development partners
Palliative care programme	This involves care and support of	Communities	All TAs	2017-2022	50	Health	Govt, Malawi Liverpool

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement(MK'000,000)	Lead Agency/Organization	Source of Funding
	chronic of people						Welcome Trust and other development partners
Integrated Community Case Management of Illnesses (ICCM)	This involves provision of basic treatment (malaria, diarrhoea and ARI) for children aged 2 to 59 months within 24 hours to reduce under five mortality	Communities	All TAs	2017-2022	450	Health	Govt, Save the Children & NGOs, Development Partners
Youth friendly Health	This involves provision of health	Communities	All TAs	2017-2022	50,	Health & Youth	Govt UBALE & other

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/Organization	Source of Funding
Services programme	services that are friendly to youths						NGOs, development partners
Health service infrastructure	This involves expansion of existing and construction of new health facilities	Communities	Chigaru, Lundu, Chilaweni, Chisenjere, Kunthembe Machinjiri, Mtenje	2017-2022	505,	Health	COMSEF, DDF, UNICEF and other development partners
Non-Communicable Disease programme	This involves awareness and treatment of NCDs	Communities	All TAs	2017 -2022	60,	Health & NGOs	Govt, NGOs, UNICEF and other development partners

Development Issues no. 10: Low Accessibility to Portable Water

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement(MK'000,000)	Lead Agency/Organization	Source of Funding
Safe water supply programme	This will involve construction and maintenance of safe water facilities to provide safe water to communities & institutions	Communities and Institutions	All 8 TAs	2017 -2022	525,	Water & Health	Constituency Borehole Fund, COMSEF, MDRRP, CDF, Fisherman's nest and other NGOs, Development partners
Water Points mapping and water quality monitoring project	This will involve data collection, updating of M-water database and monitoring	Communities and Institutions	All 8 TAs	2017 -2022	25,	Water & Health	Govt, Water for People and other NGOs, Development

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement(MK'000,000)	Lead Agency/Organization	Source of Funding
	quality of water to ensure access to safe water						ent partners
Hygiene promotion and sanitation marketing	This will involve training of communities & schools in CLTS and SLTS respectively to promote hygiene practices	Communities and Institutions	All 8 TAs	2017 -2022	100,000,000	Water & Health	Govt, UBALE, Hygiene Project and other NGOs, UNICEF and other Development partners
WASH Community Based Management	This will involve building capacity of communities in management of water points to improve	Communities and Institutions	All 8 TAs	2017 -2022	50,	Water & Health	Govt, UBALE, Hygiene Village and other NGOs, UNICEF

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders/Beneficiaries	Location	Implementation Period	Funding Requirement(MK'000,000)	Lead Agency/Organization	Source of Funding
	functionality of water points						and other Development partners
Provision of new water points and maintenance of existing water points	This involves drilling and maintenance of non-functional water points to increase access to safe and potable water	Communities and institutions	All 8 TAs	2017 -2022	350	Water & Health	Constituency Borehole Fund, COMSEF, MDRRP, CDF, Fisherman's nest and other NGOs, Development partners

Development Issues no. 11: High Level of Malnutrition

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders / Beneficiaries	Location	Implementation Period	Funding Requirement	Lead Agency/ Organization	Source of Funding
Scaling Up Nutrition programme	This will involve behaviour change initiatives and provision of complimentary and therapeutic feeding, and micronutrients and de-worming to eradicate stunting	Pregnant women, lactating mothers and children under 2 years	All 8 TAs	2017 -2022	980	Health, Agric	Govt, UBALE, FISD/WFP and other CSOs and WFP and other development partners
Community Management of Acute Malnutrition (CMAM)	This involves growth monitoring, counseling and provision of supplementary and therapeutic feeding to children aged 6 months to 15 years	Malnourished children aged 6 months to 15 years	All health centres	2017 -2022	980,	Health	Govt, CSOs, WFP and development partners

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders / Beneficiaries	Location	Implementation Period	Funding Requirement	Lead Agency/ Organization	Source of Funding
Nutrition Care Support and Treatment programme	This will involve nutritional education, food supplementation and counseling of adolescents and adults to reduce malnutrition	Adolescents and Adults that are malnourished	All 33 health centres	2017 -2022	70,	Health	Govt, CSOs, WFP and other development partners

Development Issues no. 12: High crime rate

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders / Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/ Organization	Source of Funding
Crime management programme	This will involve increasing police visibility through patrols and rapid response to reduce, prevent and respond to crime	Community	All 8 TAs	2017 -2022	25,	Police	Govt, DFID, China AID, and other Development partners
Construction and maintenance of police facilities	This will involve construction and maintenance of police offices, staff houses to improve service delivery	Community	All TAs	2017 -2022	370	Police	COMSEF, DDF, Development partners
Community policing enhancement	This involves formation, training and provision of	Communities	All 8 TAs	2017 -2022	20	Police	Govt, DFID and other

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders / Beneficiaries	Location	Implementation Period	Funding Requirement (MK'000,000)	Lead Agency/ Organization	Source of Funding
	materials of community policing forums to prevent crime in communities						development partners
Human trafficking and gender based violence prevention	This involves awareness and enforcement of by-laws to reduce human trafficking and GBV	Communities	All 8 TAs	2017 -2022	20(Human trafficking = 4.9GBV = 4.9	Police & Social Welfare	Govt, NGOs, development partners

Development Issues no. 13: Poor Governance and Accountability Structures

Program/Project Title/Name	Brief Profile/Description	Primary Stakeholders / Beneficiaries	Location	Implementation Period	Funding Requirement	Lead Agency/ Organization	Source of Funding
Good governance and accountability for local development and PIC structures	The project will sensitize duty bearers and community members through awareness, interface meetings and trainings in good governance and accountability	Communities and duty bearers	All 8 TAs	2017 - 2022	K700,	Council and CSOs	LGAP, NICE and other NGOs, UNDP, , EU and other development partners

Chapter 4: Resources for District Development

4.1: Analysis of Council investment

During the period 2017 – 2022, Blantyre district council through this District Development Plan, seeks to seriously make public investments. The investments will be financed by central government, locally generated resources by the district council, NGOs, donors, private sector and beneficiary communities' own contributions.

The Council has planned to increase the proportion of households that are food secure from 80% to 95% by 2022. The council plans to achieve this objective through its investment in training smallholder farmers in good agricultural practices (GAP); promotion of livestock development (especially in the dairy livestock by increasing dairy animals from 10,062 to 12,500), increase area under irrigation from 629ha to 900ha and increasing number of agricultural extension staff from 61 to 126 by 2022.

The plan has also included investments in building capacity of rural residents including the youths in entrepreneurial and business development so that they become self employed and also create viable businesses to employ others. This is expected to increase per capita incomes from MK110,000 to 220,000 per person by 2022.

As a means of addressing challenge of poor education standards of education in Blantyre, the council has prioritized construction of classroom blocks and teachers houses in the 2017-2022 plan. Education sector has planned to increase the number of school blocks by an additional 120 classroom blocks to increase classroom blocks from current 1,190 to 1,310 blocks. Construction of teacher's houses and toilet facilities are also part of planned public investment in the Education sector over the planned period.

Improvement of 1,416 km of roads in the district is also part of the planned public investments in the district during the 2017-2022 plans. It is expected that 22 kms out of the 44 km tertiary earth roads will be bituminized and the entire 74 kms stretch of district earth road will be upgraded to gravel level. At least 95 bridges will also be upgraded or constructed during the period.

In the health sector, the council plans to construct six new and rehabilitate eight health facilities to among other things, reduce mortality especially neonatal mortality rate from 23 deaths/1,000 live births to 15 deaths/1,000 live births and maternal mortality from 439 deaths/1,000 mothers to 350 deaths/1,000 mothers by 2022.

The list of public investments shown in the plan is not exhaustive as some investments may emanate from outside these plans but address the issues reflected in the plan.

4.2. Private Investment Analysis

Blantyre (rural) district council surrounds Blantyre city which is the commercial and industrial capital of Malawi with a large number of private companies involved in such sectors as transport, finance, commerce food processing, construction, machinery and other industrial production. As such, Blantyre district council has an edge over all other districts in Malawi in terms of its proximity to the market for its agricultural and non-agricultural products. Thus Blantyre rural has access to markets on its door-steps for its products as well as labour market.

Furthermore, some private firms are located within the rural setting of Blantyre district. Such firms include Terrastone Ltd, Thames cement block Manufacturing Company, Peoples Trading Company, Afrisian Manufacturing Company, Sharma Company, Project Peanut butter, Limeco Manufacturing Company, Export trading group company and Kings manufacturing company. These also play a significant role in the development of the rural community by creating job opportunities and providing easily accessible markets to products from Blantyre rural residents.

Although rural in nature, Blantyre District has a number of trading centres which are rapidly developing and are potential catalysts to induce the socio-economic development of Blantyre rural. Such trading centres include Mdeka, Lirangwe, Chileka, Lunzu, Nkula and Mpemba. The development of these rural trading areas is attributed to a number of factors some of which include improved road network, provision of social services such as schools, health centres, and water and provision of commercial services such as markets and shops. As spheres of influence, the rural trading centres are expected to exert economic development to the surrounding areas. These trading centres are serving the communities in various ways such as ready market centres for farm produce, provision of retail and wholesale services, centres of entertainment and provision of social services like sports, schools and hospitals.

Owing to housing shortages in the city, nearby Blantyre rural areas have witnessed relocation of high income city workers to some of the rural centres. Thus modern residential housing areas have mushroomed in areas such as Mpemba where the Blantyre District Council has opened up-market residential area mostly being developed by middle to high income city workers. Such areas are expected to lead to development of auxiliary services such as banks, schools and other services by the private sector.

4.3. Future financial projections

Future financial projections are revenues that the council expects to collect from its locally generated revenues through provision of district services, central government contributions, funds from Non-government organizations and donors. Table 3 below shows a summary of the projected financial figures that are linked to the planned programs and projects disaggregated by specific budget year.

Table 3: Financial Projections

Rank	Development Issue	Year/Project cost (MK'000,000)					Total projection	% of Total Projection	Source of Funds
		2017/2018	2018/2019	2019/2020	2020/2021	2021/2022			
	Total	6,433.5	5,540.3	6,409.4	6,387.0	6,262.4	31,032.6	100%	
1	High Food insecurity	1,349.5	489.6	531.7	532.2	485.1	3,387.9	11%	Govt, donors , Private sector & NGOs

13	Poor governance and accountability structures	120	150	200	115	115	700	2%	UNDP, GIZ, EU

Chapter 5: Annual Investment Plans

Since identified programmes and projects will be implemented during the 5 year period, the plan identifies programmes and projects to be implemented within a specified year. The categorization of proposed programmes and projects by year of implementation is presented in this section as Annual Investment Plans for year 1, year 2, year 3, year 4 and year 5 as separate tables.

Include sub totals after every AIP.

Table 4: Annual Investment Plans

Year 1: 2017/2018

Programme/project Title	Specific Location	Programme/project Cost (MK'000,000)	Source of Funds
Soil Fertility improvement	Chipande, Kunthembwe, Lirangwe, Lunzu, Ntonda EPAs	22	SAPP, SRBMP, World bank and other donors , Private sector & NGOs
Soil and water conservation	Chipande, Kunthembwe, Lirangwe, Lunzu, Ntonda EPAs	35	SAPP, SRBMP, NLGFC, MDRRP, MFERP, World Bank and other donors , Private sector & NGOs
Tree planting project	Kunthembwe, Lundu, Kuntanja, Somba, Makata, Chigaru, Machinjiri and Kapeni	29	COVAMS II,MDRRP. MFERP, NLGFC, SRBMP, NGOs (UBALE, FISC/WFP,STEFANOS, , WESM, Fisherman's Nest)

Programme/project Title	Specific Location	Programme/project Cost (MK'000,000)	Source of Funds
Natural forest regeneration promotion	Kunthembwe, Lundu, Kuntanja, Somba, Makata, Chigaru, Machinjiri and Kapeni	22	COVAMS II, NGOs (Ubale, STEFANOS, , WESM, Fisherman's Nest)
Good Agricultural Practices (GAP)	Chipande, Kunthembwe, Lirangwe, Lunzu, Ntonda EPAs	55	SAPP, SRBMP, NLGFC, MDRRP, ,World Bank and other donors , Private sector & NGOs
Drought tolerant crops promotion	Chipande, Kunthembwe, Lirangwe, Lunzu, Ntonda EPAs	77.5	MDRRP, MISST, donors , Private sector & NGOs
Sustainable Irrigation project	Chipande, Kunthembwe, Lirangwe, Lunzu, Ntonda EPAs	100	MDRRP, MFERP, WFP, UBALE, donors NGOs, Private sector
Post harvest handling improvement	Chipande, Kunthembwe, Lirangwe, Lunzu, Ntonda EPAs	16	SAPP, MDRRP, UBALE, donors NGOs, Private sector
Intergrated pest management	Chipande, Kunthembwe, Lirangwe, Lunzu, Ntonda EPAs	22	SAPP, FAO,SANE, donors NGOs, Private sector

Programme/project Title	Specific Location	Programme/project Cost (MK'000,000)	Source of Funds
Extension Services Scaling Up	Chipande, Kunthembwe, Lirangwe, Lunzu, Ntonda EPAs	19	SAPP, UBALE, WFP, donors NGOs, Private sector
Dairy Livestock Development and Management	Chipande, Kunthembwe, Lirangwe, Lunzu, Ntonda EPAs	25	Govt, NGOs & Pvt sector
Small Ruminants Development Project	Chipande, Kunthembwe, Lirangwe, Lunzu, Ntonda EPAs	21	SAPP, TLC/FAO,FISD/WFP NGOs & Pvt sector
Environmental education project	All 8 TAs	10	SRBMP,NLGFC,, NGOs (Ubale, STEFANOS, , WESM, Fisherman's Nest)
Fisheries and aquaculture development	Chipande, Kunthembwe, Lirangwe, Lunzu, Ntonda EPAs	30	NLGFC, NGOs & Pvt sector
Farmer Cooperative Development	Chipande, Kunthembwe, Lirangwe, Lunzu, Ntonda EPAs	23	COMSIP, SAPP,UBALE, NGOs & Private sector
Rural banks establishment lobbying	Kunthembwe, Mdeka, Lirangwe and Mpemba	2	Govt

Programme/project Title	Specific Location	Programme/project Cost (MK'000,000)	Source of Funds
Scaling Up Nutrition	Chipande, Kunthembwe, Lirangwe, Lunzu, Ntonda EPAs	220	Govt, UBALE, FISP/WFP and other CSOs and WFP and other development partners
Family planning programme	All 8 TAs	30	PSI, BLM, MSH, UNFPA, NGOs & development partners
Group village savings and Loans formation	All TAs	4	NLGFC, UBALE, WFP, donors NGOs, Private sector
Small and medium enterprises (SMES) programme	All TAs	50	COMSIP,, NGOs & Pvt sector
Construction of school blocks, teachers houses, toilets, offices and libraries	All zones	146	SIG, NGLFC, COMSEF, DDF, CDF, Fisherman's nest, NGOs, Pvt sector
Rehabilitation of school blocks	All zones	31.5	SIG, NGLFC, COMSEF, DDF, CDF, Fisherman's nest, NGOs, Pvt sector
School management training programme	All zones	30	SIG & NGOs
Continuing Professional Development	All zones	40	SIG & NGOs

Programme/project Title	Specific Location	Programme/project Cost (MK'000,000)	Source of Funds
Supply of teaching and learning materials	All zones	40	SIG, NRP, VSO,NGOs, Pvt sector
School feeding programme (Growing of maize)	Nankumba & Madziabango zones	1	Mary's meals, Fisherman's nest, NGOs, Pvt sector

Chapter 6: Monitoring & Evaluation Framework

The District Development Planning System provides for a Monitoring and Evaluation (M&E) System that comprise processes, tools, indicators and web based data management information system which enable the communities and district to assess the progress of their planned work. The main aim of the M&E system is to satisfy the requirements of decision-making, learning of lessons, and ensuring accountability. Thus the DDPS depends upon an effective monitoring and evaluation system to conclude its cycle.

An effective M&E System in the District Development Plan is built on a sound M&E Framework as presented in Table 5 below. The M&E Framework clearly defines key result areas with respective related indicators, baseline situation, set targets, means of verification (MoV), frequency of data collection and responsible entities. It is worth noting that the indicators are linked to the MGDS III indicators thereby enabling Blantyre district to contribute to MGDS III M&E reporting requirements.

Monitoring of the DDP

Monitoring of the DDP will that takes place during the course of implementation of programmes and projects contained in the plan. This will involves the continuous collection and analysis of information or day-to-day project activities so as to take check on the progress of ongoing activities as laid down on the project implementation schedule and in order to allow the taking of corrective measures when problems occur. Monitoring commences once the annual Assembly Budget is approved by the District Assembly. All activities will be monitored against set targets in terms of cost, time, and level of achievement.

Monitoring of the DDP will take place at three levels: Community level (by Project Implementation Committees, VDCs, ADCs, and AECs); District level by DEC members including DPD and NGO representatives; National level by officers from Ministry of Local Government and Rural Development, Ministry of Finance and Economic Planning, other Government ministries and other national level organisations.

Evaluation of the DDP

In the course of DDP implementation, the following three types of evaluations will be carried out: Ex-ante, Mid Term and End of Term Evaluations. Ex ante evaluation will be done by the district M and E team before implementation of programmes/projects to assess whether objectives are clear and coherent, including developing and quantification of indicators thereby enabling

monitoring of implementation as well as reporting on achieved results. The midterm evaluation of the DDP will be done by an external evaluator to assess whether the Council is heading towards the set goals and objectives. At the end of the DDP implementation period, an end term evaluation will be done by external evaluators to establish whether the intended goals and objectives of the DPP have achieved.

The design of your M&E framework should provide for three Evaluations, namely Ex-ante, Mid Term and End of Term Evaluations.

Knowledge management

As implementation of the programmes/projects will generate a lot of lessons as regards what worked well and what did not work well, it is important that the M&E System documents all positive and negative lessons learnt. This will provide vital knowledge on best practices to be used in re-planning within the period of the current DDP or future DDPs.

M&E Institutional Set-Up

Regarding institutional set up, the District M&E Officer will consolidate data collected during monitoring of programmes/projects by respective District Government Agencies from community/district level, NGOs and other implementing partners into the district Data management information system. As regards meeting evaluation requirements, the district council shall carry out special studies as situation demands, otherwise evaluations that require advanced sampling methodologies, these should be left to the National Statistical Office that should collect such data during its standard National Sample Surveys to feed into the district Data Management Information System. The district Data Management Information System will therefore be used to monitor progress towards the set targets.

The District Monitoring and Evaluation Committee which is comprised of M and E focal persons from government sectors and major NGOs working in the district will play a crucial role in reporting. It is expected that each sector in the district carry out regular sectoral reviews to assess progress of sectoral programmes/projects and report them during the regular DMEC thereby adequately providing evidence based advice to DEC. The District Monitoring and Evaluation Officer will consolidate the district report based on reports on indicators in DDP by

government sectors and NGO's on quarterly and annual basis and share with relevant stakeholders, including line ministries.

. The Director of Planning and Development will also hold Annual Investment Plans reviews at the middle and end of each year in order to improve on implementation of the DDP.

Expound on the role of the DMEC

Reporting

Information flow.

Table 5: M&E Framework

Result Area	Indicator	Baseline (2017)	Target (2022)	Means of Verification	Frequency	Responsible entity
Goal 1: To increase food security at household level						
Outcome 1.1: Increased land under irrigation	Area under irrigation (ha)	629 ha	900 ha	Agricultural surveys/APES	Annually	District Agriculture Office
Outcome 1.2: Increased agricultural production and productivity	Ratio of Agricultural extension service workers to farmers	1:3116	1:1,500	Agricultural surveys/APES	Annually	District Agriculture Office
	Proportion of farm households which adopt recommended agricultural technologies	60%	80%	Agricultural surveys/APES	Annually	District Agriculture Office
	Maize yield (Tonnes/ha)	2 tons/ha	3 tons/ha	Agricultural surveys/APES	Annually	District Agriculture Office
	Pigeon peas (Tonnes/ha)	1.7 tons/ha	2.2 tons/ha	Agricultural surveys/APES	Annually	District Agriculture Office
Outcome 1.3: Increased agricultural diversification	Dairy cattle population	10,062	12,500	Blantyre RDP Annual Reports	Annual	Blantyre RDP

Result Area	Indicator	Baseline (2017)	Target (2022)	Means of Verification	Frequency	Responsible entity
	Goat population	179,244	200,000	Blantyre RDP Annual Reports	Annual	Blantyre RDP
	Fish production (tons)	351.5 tons	500 tons	Blantyre RDP Annual Reports	Annual	Blantyre RDP
Goal 2: To increase household incomes						
Outcome 2.1: Increased agriculture market development, agro processing and value addition	Annual growth in agricultural value addition and agro-processed output	4%	20%	Trade Reports	Annual	MoFEPD, MoIT, MoAI&WD
Outcome 2.2: Increased access to credit targeting farmers and other MSMEs	Percentage of population financially inclusion (%)	34%	55%	FINScope Survey	5 years	Reserve Bank of Malawi
Goal 3: To reduce high population growth						

Result Area	Indicator	Baseline (2017)	Target (2022)	Means of Verification	Frequency	Responsible entity
Outcome 3.1: Reduction in school drop out	Reduced school dropout rate	3%	nil	EMIS reports	Annual	District Education Office
Outcome 3.2: Increase in adoption of family planning methods	Increase in family planning methods adoption rate	65%	80%	MDHS & MICS	3 to 5 Years	NSO & MoH
	Adolescent birth rate (aged 15-19 years) per 1,000 women	136	100	MDHS & MICS	3 to 5 Years	NSO & MoH
Goal 4: To improve quality of education						
Outcome 4.1: Improved access and equity to Early Childhood Development (ECD)	Participation rate in organized learning (one year before the official primary entry age)	44%	70%	Community Development Reports	Annual	MoGCDSW
Outcome 4.2: Improved access and equity in basic education	Pupil Qualified Teacher Ratio (Primary)	80	64	EMIS reports	Annual	District Education Office
Outcome 4.3: Improved quality and relevance of	Pupil Permanent Classroom Ratio	116	105	EMIS reports	Annual	District Education Office

Result Area	Indicator	Baseline (2017)	Target (2022)	Means of Verification	Frequency	Responsible entity
primary education	Primary Completion Rate	50%	52%	EMIS reports	Annual	District Education Office
Outcome 4.4: Improved governance and management of basic education	Governance Structures (SMC, PTA, Students Body, Board Of Governors/Councils) Functional In All Learning Institutions	90%	100%	EMIS reports	Annual	District Education Office
Goal 5: Improved road conditions						
Outcome 5.1: Upgrading of roads standards	Length of tertiary roads bituminized	None out of 44 kms	22 kms	District Road reports	Annual	Director of Public Works
	Length of district roads with gravel surface	None out of 74 kms	74 kms	District Road reports	Annual	Director of Public Works
	Length of undesignated roads with gravel surface	None out of 1,298 kms	300 kms	District Road reports	Annual	Director of Public Works
Goal 6: Reduction in environmental degradation						
Outcome 6.1: Enhanced environmental degradation preventive measures	Proportion of customary land planted with tress	20%	23%	Annual surveys	Annual	District Forest Office
	Percentage of households using solid fuel (firewood, sustainable sources) for cooking	87%	80%	Annual surveys	Annual	District Forest Office

Result Area	Indicator	Baseline (2017)	Target (2022)	Means of Verification	Frequency	Responsible entity
Outcome 6.2: Strengthened environmental management	Hectares of catchment area conserved	2070	4,000	Blantyre District Forest Report	Annual	District Forest Office
Outcome 6.3: Improved access to reliable and sustainable energy supply	Percentage of population with access to electricity	10%	50%	National Household Surveys	3 to 5 years	NSO
Goal 7: Reduced youth unemployment						
Outcome 7.1: Increased access to vocational, & business management training amongst youths	No. of vocational skills development centers established	3	8	Labour reports	Annual	MoLYSMD
Goal 8: Reduction on morbidity and mortality						
Outcome 8.1: Reduction in neo-natal mortality rate	Neo-natal mortality rate	23 deaths/1,000 births	15 deaths/1,000 births	MDHS	5 years	NSO

Result Area	Indicator	Baseline (2017)	Target (2022)	Means of Verification	Frequency	Responsible entity
Outcome 8.2: Reduction in under five mortality rate	Under five mortality rate	63 deaths per 1,000 children	50 deaths per 1,000 children	MDHS	5 years	NSO
Outcome 8.3: Reduction in maternal mortality rate	Maternal mortality rate	439 per 100,000 women	350 per 100,000 women	MDHS	5 years	NSO
Outcome 8.4: Reduction in HIV/AIDS cases	HIV/AIDS prevalence rate	9%	6%	HIV/AIDS monitoring reports	Annual	NAC
Outcome 8.5: Improved hygienic and sanitation practices	% of households with improved sanitation	45%	65%	MDHS & MICS	3 to 5 years	NSO
Goal 9: Improve access to portable water						
Outcome 9.1: Increased access to portable water	Percent of households using safe drinking water	60%	75%	MDHS & MICS surveys	3 to 5 years	NSO
Goal 10: Reduce high levels of malnutrition						

Result Area	Indicator	Baseline (2017)	Target (2022)	Means of Verification	Frequency	Responsible entity
Outcome 10.1: Reduced prevalence of stunting, wasting, underweight and other forms of malnutrition among under five children	Stunting Prevalence rate among under five children	33.2%	20%	MDHS & MICS surveys	3 to 5 years	NSO
	Wasting prevalence rate among under five children	3.1%	2%	MDHS & MICS surveys	3 to 5 years	NSO
	Under weight prevalence rate among under five children	9.1%	6%	MDHS & MICS surveys	3 to 5 years	NSO
Goal 11: Reduction in crime rate						
Outcome 11.1: Reduction in crime	Crime rate	23%	15%	Police reports	Annual	Blantyre Police
Goal 12: Improve governance and accountability						
Outcome 12.1: Reduction in corruption	Corruption Perception Index	31	20	Corruption survey	Annual	ACB/Transparency International

Chapter 7: Conclusion

The 2017 – 2022 Blantyre District Development Plan is expected to improve livelihoods of the 417,453 residents of Blantyre rural. The plan seeks to utilize about MK31 billion to be sourced from Council's locally generated revenues, Central Government, NGOs, donors, private sector and beneficiary contributions. Major areas of intervention are improving food security, increasing household incomes, population growth reduction, improving education standards, road network improvement, reduction of environmental degradation, reduction of teenage pregnancies, reductions of youth unemployment, reduction in morbidity and mortality, improved access to portable water, malnutrition reduction, reducing crime rate, and improvement in governance and accountability. Progress on these areas will contribute to achievement of the MGDS III and SDGs.

Appendix

Annex 1: Summary of Area Development Plans by ADC

Chigaru ADC

RANK	ISSUES	PROJECT	HOST VILLAGE DEVELOPMENT COMMITTEE
1	Lack of potable water	Drilling of boreholes	Chibweya, Chigaru, Chilipa, Kayesa, Nthache, Kaphikamtama, Masinde, M'dala, Mizande.
2	high rate of deforestation	Afforestation	Chibweya, Chigaru, Nthache, Chilipa, Kayesa, Masinde, M'dala, Mizande.
3	High rate of soil degradation	Good agricultural practices	Chibweya, Chigaru, Kayesa, Masinde, Mizande.
4	Poor road conditions	Road/bridge construction and maintenance	Chibweya, Kayesa, Chigaru, Chilipa, Kayesa, Masinde, Thom Mbera
5	Late coming of teachers to start school classes	Construction of teachers houses	Chigaru, Kayesa, Masinde, Mizanje, Thom Mbera
6	Inadequate classroom blocks	Construct of classroom blocks	Chigaru, Kayesa, Masinde, Mizanje, Thom Mbera
7	Low household income levels	Capacity building in small & medium businesses & entrepreneurship	Kayesa, Masinde, M'dala, Chilipa, Thom Mbera
8	High HIV/AIDS prevalence	HIV/AIDS awareness campaign	Mizanje, M'dala
9	High household food insecurity level	Compost manure making and Good Agricultural practice promotion	Chibweya, Kayesa, Nthache.

RANK	ISSUES	PROJECT	HOST VILLAGE DEVELOPMENT COMMITTEE
10	Poor access to health facilities	Construction of health facilities	Chigaru, Kayesa, Masinde, Mizanje, Tho
11	High crime rate	Formation of Village Loans and Savings groups for youths	Chigaru, M'dala, Thom Mbera
12	Overpopulation	Family planning programme	M'dala, Mizanje

Chilaweni ADC

RANK	ISSUES	PROJECT	VILLAGE DEVELOPMENT COMMITTEE/GV
1	High food insecurity	Agricultural productivity enhancement	Chimbiya, Ching'amba, Likomba, Mac
		Agricultural irrigation	Chilaweni, Malumba
		Livestock promotion	Chilaweni
2	Poor road conditions	Upgrading of roads	Chilaweni, Chimbiya, Ching'amba, Lika
3	High level of environmental degradation	Agro forestry and land conservation	Chilaweni, Chimbiya, Ching'amba, Machinjiri, Likomba, Malumba
4	Lack of potable water	Construction and maintenance of boreholes	Chilaweni, Malumba, Chimbiya, Likom Ching'amba

RANK	ISSUES	PROJECT	VILLAGE DEVELOPMENT COMMITTEE/GV
5	Lack of school learning and teaching materials	Construction of school blocks	Chilaweni, Machinjiri, Chimbiya
6	High level of insecurity	Construction of police unit	Chimbiya
7	High incidence of diseases	Hygiene promotion and sanitation marketing	Ching'amba, Likomba,
		Construction of health facilities	Chilaweni, Malumba
8	Lack of street lights	Street light installation	Chilaweni
9	Teen age pregnancies	Girls stay in school awareness	Chilaweni, Chimbiya, Malumba
10	Over population	Family planning programme	Chilaweni, Malumba, Chimbiya, Likomba, Ching'amba
11	Poor market structures	Market construction	Chilaweni.
12	High adult illiteracy rate	Adult literacy programme	Chilaweni, Malumba, Chimbiya, Likomba, Ching'amba

RANK	ISSUES	PROJECT	HOST VILLAGE DEVELOPMENT COMMITTEE
1	Lack of safe water	Borehole maintenance	Adam, Anderson, Chibwana, Maxwell, C Nzigala, Chimkango, Kammata, Lemu, M Zinganguwo, Magombo, Mulima, Thang
2	High level of deforestation	Community afforestation and CBNRM	Jeweta, Kammata, Kesinala, M'dala, MT Tambala, Kumtaja, Bwanasompho, Chib Chimkango, Katchakwala, Magombo, M Siyandima, Zinganguwo, Thanganyika
3	Poor road network	Road maintenance	Chimkango, Kammata, Kesinala, Maliza Anderson, Maxwell, Bwanasompho, Chib Mtiza, Nkata, Zigala, Siyandima, Nzigala, Thanganyika, Zinganguwo, Tambala
		Construction of bridges	Chimkango, Kammata, Kesinala, Maliza Anderson, Maxwell, Bwanasompho, Chib Mtiza, Nkata, Zigala, Siyandima, Nzigala, Thanganyika, Zinganguwo, Tambala
4	Low education levels	Construction of classroom blocks	Chibwana, Maxwell, Kesinala, Pensulo, S Zinganguwo Anderson, Chimtumbira, Kammata, Mali Ntefula, Lemu, Thanganyika
		Construction of teacher's houses	Chibwana, Maxwell, Kesinala, Pensulo, S Zinganguwo Anderson, Chimtumbira, Kammata, Mali Ntefula, Lemu, Thanganyika
5	Low household incomes	Capacity building in small & medium businesses & entrepreneurship	Adam, Jeweta
5	High prevalence rate of HIV and AIDS	HIV/AIDS awareness campaign	Adam, Jeweta

RANK	ISSUES	PROJECT	HOST VILLAGE DEVELOPMENT COMMITTEE
6	High household food insecurity	Agricultural productivity enhancement	Anderson, Chibwana, Maxwell, Chintum, Nzigala, Chimkango, Kammata, Lemu, M, Zinganguwo, Magombo, Mulima, Thang
		Food diversification programme	Anderson, Chibwana, Maxwell, Chintum, Nzigala, Chimkango, Kammata, Lemu, M, Zinganguwo, Magombo, Mulima, Thang

Lundu ADC

RANK	ISSUES	PROJECT	HOST VILLAGE DEVELOPMENT COMMITTEE
1	High Food insecurity	Agriculture productivity programme	Lundu, Lunguzi, Malenga, Maliko, Nkumba, Williamu, Somba
		Food diversification programme	Lundu, Lunguzi, Malenga, Maliko, Nkumba, Williamu, Somba
2	High environmental degradation	Aforestation of bare land	Lundu, Lunguzi, Malenga, Nkumba, Som, Malume
		Family size reduction campaign	Lundu, Lunguzi, Malenga, Nkumba, Som, Malume
		Income generation programme	Lundu, Lunguzi, Malenga, Nkumba, Som, William, Malume

RANK	ISSUES	PROJECT	HOST VILLAGE DEVELOPMENT COMMITTEE
3	Limited access to portable water	Construction of new and maintenance of existing boreholes	Lundu, Lunguzi, Malume, William, Maliko Malenga, Somba
4	High youth unemployment	Small scale business and entrepreneurship	Lundu, Lunguzi, Somba,
		Construction of community technical colleges	Lundu
5	High mortality rates	Hygiene promotion and sanitation marketing	Lundu, Somba, William
		Construction of health facilities	Lundu, Somba, William
6	High incidence of teenage pregnancies	Girls stay in school awareness campaign	Lundu, Somba, William
7	High adult illiteracy rate	Adult literacy programme	Lundu, Somba, Undi, William, Lunguzi

Kajombo ADC

RANK	ISSUES	PROJECT	HOST VILLAGE DEVELOPMENT COMMITTEE
1	High level of soil erosion	Conservation agriculture programme	Kajombo
2	Poor road network	Road maintenance	Kajombo, Msusa
3	High level of deforestation	Afforestation management programme	Kajombo, Msusa
		Family planning programme	Kajombo, Msusa
4	Low access to portable water sources	Construction and maintenance of boreholes	Kajombo, Msusa
5	Low income levels	Capacity building in small & medium businesses & entrepreneurship	Kajombo
